Fiber Optic Microscopes

OPTISPEC® DE8850 & DE8880

The OptiSpec® DE8850 (Standard) & DE8880 (High Volume) Microscopes provide multiple time saving operations/capabilities, allowing you to inspect connectors while loaded in a fixture, without damaging the fibers. Domaille's 8800 series scopes allow the user to reconfigure from standard fixture inspection to high volume fixture inspection.

Monitor and adapters sold separately

DE8850

DE8850

Domaille specializes in engineering solutions for your unique DE8850/8880 fixture requirements
