FMAX Adapters

FMAX Series adapters are the next generation of adapters directed for patch cord inspection and are highly recommended for new deployments and projects. These adapters connect to the [FV Benchtop Microscopes](#) and the Patch Cord Microscope on the [SmartClass Fiber Series](#). These are the only adapters recommended for the [FVA series microscopes \(2030 and 2400\)](#). Note: FMAX "SL Series" adapters are optimized for use with the FVAi-2030.

They can also be connected to the [FiberChek™ Probe](#) and [FBP-P5000i](#) by using the FBPT-UFMAE, together with an FBPP-BAP1. FMAX Series adapters are all female-threaded.
