Eye Contact: May cause irritation.

Skin Contact: May cause irritation and sensitization on contact.

Inhalation: May cause irritation.

Ingestion: Effects are not known.

4. PERSONAL PROTECTION

Eyes: Splash proof Chemical safety glasses with side shields are recommended.

Skin: Avoid skin contact. Wear gloves and impervious protective clothing if frequent direct contact is likely. Glove material should be selected based on penetration time. Check with the manufacturer for exact times.

Inhalation: Local ventilation should be provided if general ventilation is not sufficient to keep vapor or mist concentrations below permissible exposure limits. Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if permissible exposure limits are exceeded, if irritation occurs or other symptoms are experienced.

5. ACCIDENTAL RELEASE MEASURES

Mount respiratory protective device. Wear protective clothing. Wear suitable gloves and eye/face protection. Inform authorities in case of seepage into water course or sewage system. Do not allow entry into sewers, surface or ground water. Absorb with liquid binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation.
