**GOLD SERIES PRECISION RUBBER PADS**  
 P/N PM12101-XX & PM12101-XXL  
 P/N PM12108-XXL

**The finest Rubber Pad in the marketplace!**

Domaille Engineering's Gold Series line of precision rubber pads used for polishing optical fiber connectors are specially designed to control process variation. They feature actual durometer readings, durometer range of +/- 2 (Shore A), color coding for visual identification, Dry Grab high glass non-slip surface for adhering abrasive film, precision ground to .02mm tolerance serialized and date coded for data tracking.

Available in 5" and 8" options

**Benefits at a Glance:**

- Actual known durometer for consistent polishing results
- Precision +/-2 durometer ranges
- Dry Grab high gloss anti-slip surface for positive abrasive film adherence
- Actual durometer documented on pad
- Color coded, serialized and date stamped for visual identification and data tracking
- Locking or standard models
- 5" and 8" diameter sizes available in 40-95 durometer increments
