## QuantX™ Syringe Barrel Adapter Assemblies

QuantX™ syringe barrel adapter assemblies are provided with a convenient push-to-connect fitting to connect to the controller from the syringe barrel. Fitted with Buna Nitrile O-rings.

They are available with two hose lengths and optional micron filter-trap to prevent entry of fluids and fumes into the controller.

Green push-to-connect fitting comes assembled on all barrel adapter assemblies. For use with Fisnar DC50, DC100, and DC200 controllers.

Black bayonet fitting also included for connection to quick-connect style controllers.
