

Manufacturer:
Jonard Industries Corp.

Product Name:
Jonard Fiber Optic Connector Clean and Prep Kit

Manufacturer Part Number:
TK-183

The Jonard Tools TK-183 Fiber Optic Connector Clean and Prep Kit offers cleaning and preparation products for use on 1.25 mm and 2.5 mm connector end-faces and bulkhead adapters. The kit features the following:

- **JIC-375:** Fiber Stripper strips the 1.6 - 3 mm fiber jacket, 600-900 micron buffer coating, and 250 micron coating down to expose the 125 micron glass fiber
- **FL-220:** Fiber Cleaver cleaves either 900 micron buffered or 250 micron coated fiber, perfectly suited for mechanical splicing and quick field termination of fiber connectors
- **FW-50:** Fiber Wipes made with a nonabrasive residue-free 91% isopropyl alcohol solvent for cleaning fiber end-faces quickly and easily (Box of 50)
- **VFL-25:** Visual Fault Locator identifies breakpoints, leaks, poor connections, and stress points in fiber optic cable
- **H-20:** Rugged Nylon Carrying Case for safety and convenience
