

Manufacturer:
MicroCare

Product Name:
MicroCare Sticklers™ Pro360™ Fiber Optic Connector Cleaner

Manufacturer Part Number:
MCC-P360

▶ [Click here for more details on the MicroCare Sticklers™ Pro360™ Fiber Optic Connector Cleaner](#)

An industry first portable device that incorporates best-in-class benefits to spray a high purity solvent onto an end face for non-contact cleaning. The spray is followed by an air burst causing a Coandă effect allowing the process to clean 360° of the ferrule end face surface to the edge.

Product Features:

- Touchless cleaning eliminates static and scratching
- Full end face 360° clean prevents migratory residues and particulate from getting near the core
- One device with tips cleans various connector sizes: 1.25mm and 2.5mm are standard (other sizes are in R&D)
- One activation delivers a micro-dose of atomized cleaning fluid inside a narrow column of pressurized air onto a fiber optic connector end face to the ferrule edge
- Easy activation reduces technician fatigue
- One cleaning tool for a host of fiber cleaning applications
- One compact device for field portability (battery) or AC line-powered for in-house, high-volume use

Multiple US and International Patents Pending

Sticklers™ Pro360™ TOUCHLESS CLEANER
