MILLER®

MB03-7120

Flat Drop Toner Wire Slitter

Designed to make an error-free, precise separation of the toner wire on all brands of flat drop fiber cable.

The Miller MB03-7120 Slitting tool is designed to make an error-free, precise separation of the toner wire on all brands of toneable flat drop fiber cable. The tool can be used on a mid section of the cable or the cable end.

Features

- Sized to accurately remove the copper toner wire from all standard size FTTx toneable flat drop fiber cables.
- Use the MB03-7120 with these brands and others. Corning SST™, Commscope FHD, FHBD, Prysmian Resilink™TF, Superior Essex 6T
- Tool positively locates the cable for consistent slitting operation
- Shielded blade promotes safe operation & prevents injuries
- Includes one additional blade stored conveniently on the tool
