3-Channel Mid-Span Fiber Access Tool

The Mid-Span Access Tool is used to quickly and easily access fibers in 2mm, 2.5mm and 3mm buffer tubes in a mid-span location without damage to fiber.

- 3 convenient slitting channels quickly access fiber in 2, 2.5 & 3 mm buffer tubes
- Sizing channels on the tool body determine the proper diameter channel
- Spring-loaded lever opens the tool body & remains flush when the tool is closed
- Factory-set blades require no adjustments
