The new, enhanced HandiMate cleaner incorporates a synthetic cleaning cloth offering greater durability, usability and improved reliability.

The SHM-503 results in a handheld connector cleaner that is strong enough for aggressive cleaning of a wider range of contaminants, soils and end-face debris.

Stable, consistent, cleaning performance regardless of operator skill thanks to its patent pending Slide-Guide™ connector holder.

■ Key Features

- Extra durable, compact and highly reliable cleaner for connector end-face suitable for cleaning in the field and factory.
- Automatic “Clean and Advance” tape technology provides a fresh cleaning surface for each use eliminating waste and guaranteeing long tool life.
- Packaged in a handy palm sized unit, the unit enables more than 500 times cleaning. Works with both Simplex or Duplex applications.
- ESD Anti-static materials. Supports both PC and APC endface designs.
- Aggressively priced when compared to other hand-held field cleaning tools.

■ Applications

- Customer premises, troubleshooting / maintenance
- Pedestals, COs, Head-Ends, Routine Testing
- Installation / Assembly / Production environments
