Fiber Cleaning Tips and Adapters

VIAVI Solutions offers a wide variety of tips, adapters and guides for cleaning fiber connector end-faces. Browse through this comprehensive guide to determine what you need.

The FCLT Series cleaning tips attach to the **CleanBlastPRO™** and legacy **CleanBlast™** systems. FCLT tips can support both PC/UPC and APC polish types with the same tip. A "CF" designation in a part number indicates that this tip has been engineered not to make contact with the ferrule. Some of the tips are used in conjunction with a guide, as shown in the images below.

Catalog Part Number	Type	Product Image	Description
FCLT-U12	Universal		CleanBlast Tip for 1.25mm Bulkheads (LC, MU)
FCLT-U12-MA	Universal		CleanBlast Adapter for 1.25mm Patch Cords (LC, MU) Note: Requires FCLT-U12
