FMAX Adapters

FMAX Series adapters are the next generation of adapters directed for patch cord inspection and are highly recommended for new deployments and projects. These adapters connect to the [FV Benchtop Microscopes](#) and the Patch Cord Microscope on the **SmartClass Fiber Series**. These are the only adapters recommended for the **FVA series microscopes (2030 and 2400)**. Note: FMAX "SL Series" adapters are optimized for use with the FVAi-2030.

They can also be connected to the **FiberChek™ Probe** and **FBP-P5000i** by using the FBPT-UFMAE, together with an FBPP-BAP1. FMAX Series adapters are all female-threaded.
